

# tesa® 4289

## Product Information

Heavy duty tensilised strapping tape

### Product Features

- tesa® 4289 features very high tensile strength with low elongation at the same time.
- The product is highly abrasion resistant.

tesa® 4289 is a heavy duty tensilised polypropylene strapping tape with a natural rubber adhesive system.

### Application Fields

Surface protection of glass, bundling of heavy steel pipes, palletising, end tabbing of light gauge rolled steel and finished metals.

### Product Construction

- |                    |                |                    |      |
|--------------------|----------------|--------------------|------|
| • Type of adhesive | natural rubber | • Backing material | MOPP |
| • Total thickness  | 144 µm         |                    |      |

### Product Properties/Performance Values

- |                     |          |                        |     |
|---------------------|----------|------------------------|-----|
| • Tensile strength  | 420 N/cm | • Residue free removal | Yes |
| • No discolouration | Yes      |                        |     |

### Disclaimer

tesa® products prove their impressive quality day in, day out in demanding conditions and are regularly subjected to strict controls. All information and recommendations are provided to the best of our knowledge on the basis of our practical experience. Nevertheless tesa SE can make no warranties, express or implied, including, but not limited to any implied warranty of merchantability or fitness for a particular purpose. Therefore, the user is responsible for determining whether the tesa® product is fit for a particular purpose and suitable for the user's method of application.
