

# tesa® 51576

## Product Information

Double-sided non-woven tape with high adhesive power

### Product Features

- The thick adhesive coating ensures a good bond even on rough surfaces.

tesa® 51576 is a double-sided tape equipped with non-woven backing and coated with a water-borne acrylic adhesive with very high tack and high shear and temperature resistance.

### Application Fields

General purpose mounting

### Product Construction

- |                    |                      |                      |             |
|--------------------|----------------------|----------------------|-------------|
| • Type of adhesive | acrylic              | • Thickness of liner | 84 µm       |
| • Type of liner    | glassine             | • Backing material   | non-woven   |
| • Color of liner   | white                | • Color              | transparent |
| • Weight of liner  | 102 g/m <sup>2</sup> |                      |             |

### Adhesion to Values

- |                   |          |
|-------------------|----------|
| • Steel (initial) | 4.2 N/cm |
|-------------------|----------|
